

THE POWER OF LIGHTNING

On Lunland Otopians kept getting killed by meteors. It had to stop! An Otopian called Lusies prayed to the god Luno. Luno said “ I will give you something to help you if you complete a task. Bring me a piece of spiky meat”. Lusies went hunting. He found a spiky and hit it with his mace-ball hands. He took it to Luno and Luno gave him some lightning. With the power of the lighting the Otopians made a meteor radio. The meteor radio warned the Otopians about meteors. Now the Otopians are safe and Luno is worshipped for the great gift he gave them.
